BESSEY® DuoKlamp®

The One-handed Clamp & Spreader with a Unique "Twist"

Simply better.

No more disassembling the jaws of the clamp to convert it to a spreader. The DuoKlamp® incorporates a handy mini-dial that reverses the action from clamping to spreading…with a simple twist!

Two functions in one hand

Just turn the knob instead of awkwardly resetting the clamp. The rotary knob switches over from clamping to spreading and vice versa. That´s all that´s needed!

One-handed clamping

Thanks to the large, flat clamping jaws and the soft pads ... sensitive surfaces, right angles, and both rounded and pointed work pieces can be clamped easily with one hand. The DuoKlamp clamps from the front, at the side and behind the rail and is well balanced.

DuoKlamp®, large surface one handed clamp

BESSEY® Product #	Throat Depth	Clamping Capacity	Clamping Force	Approx. Weight	Case
	Inches	Inches	Pounds	Pounds	qty.
DUO16-8	3 1/4	6	260	1.13	6
DUO30-8	3 1/4	12	260	1.35	6
DUO45-8	3 1/4	18	260	1.60	6
DUO65-8	3 1/4	24	260	1.91	6
