

RADIX FB

SAFETY HELMET

ANSI
TYPE 1 & 2
CLASS C
ANSI/ISEA
Z89.1
EN 12492*

BLUE

The **RADIX Full Brim Vented Safety Helmet with Twiceme** isn't just another hard hat—it's a performance-driven essential built for pros who demand more. Whether you're working at height or on the ground, this helmet adapts to you. It's engineered for comfort, dialed for safety, and designed to keep you cool under pressure. With a fully modular design that lets you gear up with lighting, comms, and hearing protection, RADIX isn't just protective gear—it's your mission-ready headgear.

KEY FEATURES:

- **ABS External Shell** – Lightweight yet impact-resistant ABS shell built with 12 ventilation channels for rugged durability in any environment.
- **Integrated Accessory Clips** – Four built-in clips make attaching gear like headlamps and face shields fast and seamless.
- **LUX Retention System** – This premium harness delivers a secure, custom fit with an oversized adjustment dial and a sweat-resistant brow pad for all-day comfort and stability on the job.
- **Oversized Ratchet Dial** – Glove-friendly dial allows quick, stable adjustments for a dialed-in fit.
- **Moisture-Wicking Brow Pad** – Plush synthetic padding keeps sweat out of your eyes and comfort on point.
- **Magnetic Lock Chin Strap** – Quick-release chin strap opens easily with gloves but stays locked when you need it to.
- **Removable Comfort Pads** – Moisture-wicking interior liner is washable, replaceable, and built for all-day wear.
- **High-Density EPS Impact Liner** – Internal EPS liner adds crucial impact protection against debris and falls.
- **Brim Grip** – Textured brim edge offers added grip when adjusting or removing your helmet.
- **Twiceme® Technology** – Smart safety tech that supports both incident prevention and emergency response.
- **One Size Fits Most** – Adjustable to fit head sizes from 6 ½ to 8 (52–64 cm circumference).
- **Certifications** – Meets ANSI Z89.1 TYPE 2 (Class C), and EN12492 standards for maximum protection.
